

**BAKER COLLEGE
PROGRAM OUTCOMES**

Bachelor of Science Psychology

Program Outcomes

By the end of the program, students will...

1. **Application of Fundamental Knowledge in Psychology:** Apply key psychological principles, concepts, and theories to explain behavior and provide evidence-based interventions.
2. **Scientific Inquiry in Psychology:** Apply basic quantitative and qualitative research methods in psychology, including research design, data analysis and interpretation.
3. **Critical Thinking Skills in Psychology:** Employ critical thinking, skeptical inquiry, and information literacy to analyze topics and problems relevant to psychology.
4. **Ethics in Psychology:** Apply ethical standards to evaluate psychological science and practice.
5. **Sociocultural, Civic, and Global Awareness:** Demonstrate awareness of individual, social, cultural, global perspectives, and civic responsibility to foster social responsibility in a diverse world.
6. **Career Planning and Development:** Apply an evidenced-based knowledge of psychology to career goals.
7. **Professional Writing and Communication:** Communicate effectively, using the professional standards of the discipline.

* Program outcomes are aligned with the American Psychological Association's Guidelines for the Undergraduate Psychology Major, Version 2.0 (2013).

Effective: Fall 2022
