

# BAKER COLLEGE

## STUDENT LEARNING OUTCOMES

DHY 1030 Clinical Dental Hygiene III  
2 Semester Hours

---

### Student Learning Outcomes

Each student will complete the following with at least 77% accuracy:

1. Demonstrate the ability to complete and evaluate patient oral health screenings.
2. Demonstrate the ability to use accurate instrumentation techniques utilizing hand and ultrasonic scalers.
3. Prepare a patient treatment plan for clinical appointments.
4. Demonstrate the ability to complete patient education activities.
5. Demonstrate periodontal charting, dental charting, and calculus detection activities.
6. Demonstrate the ability to perform radiographic techniques as assigned.
7. Demonstrate instrument sharpening activities.
8. Demonstrate sealant placement.
9. Demonstrate the ability to perform infection control techniques.
10. Use teamwork skills in activities related to patient assessment, sterilization, procedures, and appointment control.
11. Model professional behavior and etiquette through patient treatment.
12. Apply previous course content to the practice of clinical dental hygiene.

These SLOs are not approved for experiential credit.

**Effective: Summer 2018**
