PLAN HIGHLIGHTS

Baker College Professional Services 403(b) Plan

Your employer-sponsored retirement plan is a powerful way to save for the future. Learn more about the benefits of your plan, and get the answers to any questions you have.

How can I contribute to my retirement plan?

You can control your contributions in the following ways:

- You can contribute up to 100% of your salary to your retirement savings, not to exceed the maximum allowed by the IRS.
- You can increase or decrease your contribution rate at any time.
- You can discontinue contributions to your retirement savings plan at any time. The effective date of the changes occurs as soon as administratively possible.
- You can enroll by logging in to LincolnFinancial.com/Retirement.

When am I fully vested in my retirement plan?

"Fully vested" means you have 100% ownership of the assets in your retirement account (your plan).

- You always have 100% ownership of any money you contribute to the plan, including any earnings and/or assets consolidated from another retirement plan.

What are my investment options?

You can choose from a wide variety of investment options to meet your retirement savings goal.

- **MAKE AN ALL-IN-ONE CHOICE** if you want one diversified portfolio managed for you.
- **WORK WITH A PROFESSIONAL** to manage your retirement account. Fees may apply.
- **MANAGE IT YOURSELF** and select your own portfolio of investments.
You may use a Self-Directed Brokerage Account (SDBA) and choose from thousands of investment options. Fees may apply.
- **STILL UNDECIDED?** If you participate in the plan without selecting investment options, your money will be directed to the Qualified Default Investment Alternative (QDIA) selected by your employer.

WELCOME

Can I consolidate accounts from my previous retirement plans?

You can consolidate assets from a previous retirement plan (or plans) to create an integrated savings strategy. With this option, you have the ability to:

- Manage all of your assets in one place.
- Get a single consolidated quarterly statement.
- Access account information with a single toll-free number or a single website.
- Get help and educational assistance for all of your accounts.
- Get a potentially broader array of investment choices and account types.

Contact your financial professional for assistance in determining the course of action appropriate to your situation.

Can I access balances in my retirement savings account prior to retirement?

Your retirement plan will have the greatest potential to grow if you stay invested for the long term, rather than withdrawing money from it. For that reason, the IRS limits what you can do with your account prior to retirement by imposing certain penalties for early distributions. However, you do have access to your savings—and may avoid penalties—under certain circumstances.

Loans

You can take a loan from certain account balances for:

- General purposes
- Purchase a primary residence

Check with your financial professional for information about loan fees, repayment, and the pros and cons of borrowing from your retirement plan.

Withdrawals of pretax balances

You may take a distribution from **certain available accounts** upon:

- Severance from employment
- Attainment of age 59 ½
- Financial hardship
(Distribution may be subject to the premature 10% distribution penalty if taken prior to age 59 ½.)
- Birth or adoption of a child up to \$5,000, exempt from the 10% penalty tax
- RMDs (Required Minimum Distributions)

Consult with your tax advisor before withdrawing any money from your account. You may wish to consult with your plan sponsor or review your plan's Summary Plan Description (SPD) to determine the distributions that are available under your plan.

How can I access my account?

You can access and manage your retirement account any time:

800-234-3500

DECIDE HOW MUCH TO SAVE

Your contributions represent the main fuel that generates the growth of your savings. In 2022, the IRS allows you to contribute up to \$20,500 to your plan, \$27,000 if you're age 50 or older. (Amounts can vary by plan.) The more you save, the greater the potential accumulation over time. The earlier you start can make a big difference, too.

Keep in mind that boosting your pretax contribution has less impact on take-home pay than you may think because the amount you contribute lowers your taxable income for the year. For example, if you're in the 15% tax bracket, a \$5,000 annual contribution reduces your take-home pay by only \$4,250.

DECIDE HOW MUCH TO SAVE

Every little bit counts

Even a small increase in your workplace retirement plan deferral rate can make a big difference in the size of your savings. Say you're 30 years old, earn an annual salary of \$52,000, and get paid biweekly. Deferring 2% of your salary to your plan may reduce your take-home pay by \$28, but by age 65 you could potentially accumulate more than \$174,000 in retirement savings. Defer another 2% and you could gain another \$174,000. The chart below shows the impact saving 2% more can make.

Savings-rate assumptions include 3% annual raises and 6% annual investment returns, calculated using the "Retirement Contribution Effects on Your Paycheck" tool at bankrate.com.

As a rule of thumb, try to put **10% – 15% of your income toward your retirement**. It's an easy-to-remember target, and the sooner you start to save, the likelier you may be to reach your financial goals. Check your progress by using the Contribution Planner at LincolnFinancial.com/ContributionPlanner.

Think long-term commitment

Important investment information

Performance

When used as supplemental sales literature, investment information must be accompanied by this disclosure statement

The performance data quoted represents past performance; past performance does not guarantee future results. Investment returns and principal value will fluctuate so your account balance, when redeemed, may be worth more or less than your original cost.

Current performance may be lower or higher than the performance data quoted. Instances of high double-digit returns are highly unusual and cannot be sustained. Investors should be aware that returns vary due to market conditions.

Participation in a collective trust (designated as "Trust" in the name of the investment option) is governed by terms of the trust and participation materials. An investor should carefully consider the investment objectives, risks, and charges and expenses of the collective trusts before investing. The participation materials contain this and other important information and should be read carefully before investing or sending money. Participation materials for any of the collective trusts in the program are available at 877-533-9710.

You may obtain a prospectus or similar document for each investment option in the plan by requesting one from your employer, visiting your plan's website, or calling a Lincoln Financial representative at 800 234-3500.

When the fund's inception date is less than 10 years, historical performance may not be available. When this is the case, extended performance has been calculated based on the oldest share class of the fund, adjusted for fees.

Please obtain mutual fund performance data for the most recent month end by visiting www.morningstar.com and requesting a quote using the appropriate ticker symbol.

Fund data is provided here by Morningstar, Inc.

Issuing Company

The Lincoln Stable Value Account is a fixed annuity contract issued by The Lincoln National Life Insurance Company, Fort Wayne, IN 46802 on Form 28866-SV 01/01, 28866-SV20 05/04, 28866-SV90 05/04, AN 700 01/12, or AR 700 10/09. **Guarantees for the Lincoln Stable Value Account are subject to the claims-paying ability of the issuer.**

Fees and Expenses

Fees and expenses reduce the assets allocated to your investments under the Plan, ultimately lowering the net rate of return. In addition, the fees and expenses of the investment options in your Plan will negatively impact the net rate of return of those investments. Higher fees, of course, will impact the performance of your investments.

If the performance for an investment option reports a difference between the gross expense ratio and net expense ratio, please refer to the fund's prospectus (mutual funds) or disclosure statement (collective investment trust), which may provide an explanation of applicable fee waivers.

Fee and expense information is based on information available as of 03/31/2022.

Benchmarks

A benchmark index gives the investor a point of reference for evaluating a fund's performance. Each investment option in the Plan's lineup is compared with a secondary index, based on its Morningstar Category. For example, all funds in the large-growth category are compared with the Russell Top 200 Growth index.

Investment Risk

Foreign securities portfolios/emerging markets portfolios: Portfolios that invest in foreign securities involve special additional risks. These risks include, but are not limited to: currency risk, political risk, and risk associated with varying accounting standards. Investing in emerging markets can accentuate these risks.

Sector portfolios: Portfolios that invest exclusively in one sector or industry involve additional risks. The lack of industry diversification subjects the investor to increased industry-specific risks.

Nondiversified portfolios: Portfolios that invest assets in a single issuer or a few issuers involve additional risks, including share price fluctuations, because of the increased concentration of investment.

Small-cap portfolios: Portfolios that invest in stocks of small companies involve additional risks. Smaller companies typically have a higher risk of failure and are not as well established as larger blue-chip companies. Historically, smaller-company stocks have experienced a greater degree of market volatility than the overall market average and may be less liquid than larger companies.

Mid-cap portfolios: Portfolios that invest in companies with market capitalization below \$10 billion involve additional risks. The securities of these companies may be more volatile and less liquid than the securities of larger companies.

High-yield bond portfolios: Portfolios that invest in less-than-investment-grade-rated debt securities (commonly referred to as junk bonds) involve additional risks because of the lower credit quality of the securities in the portfolio. The investor should be aware of the possible higher level of volatility and increased risk of default.

REITs: The value of the shares of a REIT fund will fluctuate with the value of the underlying assets (real estate properties). There are special risk factors associated with REITs, such as interest rate risk and the illiquidity of the real estate market.

Fund Restrictions

Lincoln Stable Value Account -LNGPA: Transfers from this investment option to competing funds may be restricted. Transfers may be made to noncompeting funds if there are no subsequent transfers to competing funds within 90 days.

Frequent trading policy: Transactions associated with market timing — such as frequent, large, or short-term transfers among investment options — can affect the underlying funds and their investments. Lincoln Financial therefore reviews the number of transfers that a participant makes within given periods of time to determine if any transfer attempts to capitalize upon short-term movements in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further scrutiny. Potential market timing or frequent trading may result in future trading restrictions, up to and including temporary (or permanent) revocation of telephone exchange privileges.

Fund-specific restrictions: Fund companies may have their own policies and procedures with respect to frequent purchases and redemptions of their respective shares, which may be more or less restrictive than the frequent trading policies and procedures of other investment options and of the Lincoln Financial Market Timing Policy. For example, when funds adopt a purchase blocking policy and you transfer an amount in excess of the fund's imposed limit from that investment, you will be restricted from investing back into that investment for a specified period of time. For more information on frequent purchase and redemption policies, please refer to the fund's prospectus or similar document.

Target-risk Disclosures

- 1 Investing internationally involves risks not associated with investing solely in the United States, such as currency fluctuation, political risk, differences in accounting and the limited availability of information.
- 2 Investing in emerging markets can be riskier than investing in well-established foreign markets. International investing involves special risks not found in domestic investing, including increased political, social and economic instability.
- 3 The target date is the approximate date when investors plan to retire or start withdrawing their money. Some target date funds make no changes in asset allocations after the target date is reached; other target date funds continue to make asset allocation changes following the target date (see prospectus for the fund's allocation strategy). The principal value is not guaranteed at any time, including at the target date.
- 4 The return of principal in bond portfolios is not guaranteed. Bond Portfolios have the same interest rate, inflation, credit, prepayment and market risks that are associated with the underlying bonds owned by the fund (or account).
- 5 Asset allocation does not ensure a profit, nor protect against loss in a declining market.
- 6 Funds that invest in small and/or mid-size company stocks typically involve greater risk, particularly in the short term, than those investing in larger, more established companies.
- 7 REITs involve risks such as refinancing, economic conditions in the real estate industry, changes in property values, dependency on real estate management, and other risks associated with a portfolio that concentrates its investments in one sector or geographic region. Funds that concentrate investments in one region or industry may carry greater risk than more broadly diversified funds.
- 8 High yield portfolios may invest in high-yield or lower rated fixed-income securities (junk bonds), which may experience higher volatility and increased risk of non-payment or default.
- 9 Funds that concentrate investments in one region or industry may carry greater risk than more broadly diversified funds.
- 10 Each Profile Fund is operated as a fund of funds which invests primarily in other funds rather than in individual securities. Funds of this nature may be more expensive than other investment options. The Profile Funds are asset allocation funds; asset allocation does not ensure a profit nor protect against loss.
- 11 An index is unmanaged, and one cannot invest directly in an index.
- 12 Social Awareness funds only invest in companies that meet socially responsible criteria, so exposure to certain industry sectors may be greater or less than similar funds or market indexes, and thereby may lead to performance differences.

Investment risks

The following information reflects a complete listing of current investment risk disclosures. For more information on investment risks, log in to your account at LincolnFinancial.com/Retirement.

International

Investing internationally involves risks not associated with investing solely in the United States, such as currency fluctuation, political or regulatory risk, currency exchange rate changes, differences in accounting, and the limited availability of information.

Small & mid cap

Funds that invest in small and/or midsize company stocks may be more volatile and involve greater risk, particularly in the short term, than those investing in larger, more established companies.

Money market funds

You can lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share (or, for the LVIP Government Money Market Fund, at \$10.00 per share), it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Index

An index is unmanaged, and one cannot invest directly in an index. Indexes do not reflect the deduction of any fees.

Sector funds

Funds that target exposure to one region or industry may carry greater risk and higher volatility than more broadly diversified funds.

Bonds

The return of principal in bond funds is not guaranteed. Bond funds have the same interest rate, inflation, credit, duration, prepayment and market risks that are associated with the underlying bonds owned by the fund or account.

Asset allocation

Asset allocation does not ensure a profit or protect against loss in a declining market.

High-yield or mortgage-backed funds

High-yield funds may invest in high-yield or lower rated fixed income securities (junk bonds) or mortgage-backed securities with exposure to subprime mortgages, which may experience higher volatility and increased risk of nonpayment or default.

REIT

A real estate investment trust (REIT) involves risks such as refinancing, economic conditions in the real estate industry, declines in property values, dependency on real estate management, changes in property taxes, changes in interest rates and other risks associated with a portfolio that concentrates its investments in one sector or geographic region.

Emerging markets

Investing in emerging markets can be riskier than investing in well-established foreign markets. International investing involves special risks not found in domestic investing, including increased political, social and economic instability, all of which are magnified in emerging markets.

Fund of funds

Each fund is operated as a fund of funds that invests primarily in one or more other funds, rather than in individual securities. A fund of this nature may be more expensive than other investment options because it has additional levels of expenses. From time to time, the fund's advisor may modify the asset allocation to the underlying funds and may add new funds. A fund's actual allocation may vary from the target strategic allocation at any point in time. Additionally, the fund's advisor may directly manage assets of the underlying funds for a variety of purposes.

S&P

The Index to which this fund is managed to is a product of S&P Dow Jones Indices LLC (SPDJI) and has been licensed for use by one or more of the portfolio's service providers (licensee). Standard & Poor's® and S&P® are registered trademarks of Standard & Poor's Financial Services LLC (S&P); Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC (Dow Jones); and these trademarks have been licensed for use by SPDJI and sublicensed for certain purposes by the licensee. S&P®, S&P GSCI® and the Index are trademarks of S&P and have been licensed for use by SPDJI and its affiliates and sublicensed for certain purposes by the licensee. The Index is not owned, endorsed, or approved by or associated with any additional third party. The licensee's products are not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, their respective affiliates, or their third party licensors, and none of these parties or their respective affiliates or third party licensors make any representation regarding the advisability of investing in such products, nor do they have liability for any errors, omissions, or interruptions of the Index®.

Feeder funds

This fund operates under a master-feeder structure. The fund invests all its assets in a separate mutual fund (the master fund) that, in turn, purchases investment securities. Funds of this nature may be more expensive than other investment options. Performance, if shown, is from the inception date of each master fund that was purchased by the applicable LVIP American Fund (i.e., the feeder fund in the master-feeder fund structure). Performance information shown is that of each master fund, as adjusted for the feeder fund expenses, including the fees and expenses of the Service Class II shares and product fees. The performance information shown is not the feeder fund's own performance, and it should not be considered as indicative of past or future performance or as a substitute for the fund's performance.

Multimanager

For those funds that employ a multimanager structure, the fund's advisor is responsible for overseeing the subadvisors. While the investment styles employed by the fund's subadvisors are intended to be complementary, they may not, in fact, be complementary. A multimanager approach may result in more exposure to certain types of securities risks and in higher portfolio turnover.

Commodities

Exposure to the commodities markets may subject the fund to greater volatility than investments in traditional securities, particularly if the investments involve leverage. This fund will typically seek to gain exposure to the commodities markets by investing in commodity-linked derivative instruments, swap transactions, or index- and commodity-linked "structured" notes. These instruments may subject the fund to greater volatility than investments in traditional securities. A commodities fund may be non-diversified, which means it may incur greater risk by concentrating its assets in a smaller number of issuers than a diversified fund.

Ultrashort bond funds

During periods of extremely low short-term interest rates, the fund may not be able to maintain a positive yield and, given a historically low interest rate environment, may experience risks associated with rising rates.

Collective trusts

Collective trusts are non-deposit investment products, which are not bank deposits or obligations, are not guaranteed by any bank, and are not insured or guaranteed by the FDIC, the Federal Reserve Board, or any other government agency.

Exchange-traded funds

Exchange-traded funds (ETFs) in this lineup are available through collective trusts or mutual funds. Investors cannot invest directly in an ETF.

Target-date funds

The target date is the approximate date when investors plan to retire or start withdrawing their money. Some target-date funds make no changes in asset allocation after the target date is reached; other target-date funds continue to make asset allocation changes following the target date. (See the prospectus for the fund's allocation strategy.) The principal value is not guaranteed at any time, including at the target date. An asset allocation strategy does not guarantee performance or protect against investment losses. A "fund of funds" may be more expensive than other types of investment options because it has additional levels of expenses.

MSCI

The fund described herein is indexed to an MSCI® index. It is not sponsored, endorsed, or promoted by MSCI®, and MSCI® bears no liability with respect to any such fund or to an index on which a fund is based. The prospectus and statement of additional information contain a more detailed description of the limited relationship MSCI® has with Lincoln Investment Advisors Corporation and any related funds.

Floating rate funds

Floating rate funds should not be considered alternatives to CDs or money market funds and should not be considered as cash alternatives.

Macquarie Investment Management

Investments in Delaware VIP Series, Delaware Funds, LVIP Delaware Funds or Lincoln Life accounts managed by Macquarie Investment Management Advisers, a series of Macquarie Investments Management Business Trust, are not and will not be deposits with or liabilities of Macquarie Bank Limited ABN 46008 583 542 and its holding companies, including their subsidiaries or related companies, and are subject to investment risk, including possible delays in prepayment and loss of income and capital invested. No Macquarie Group company guarantees or will guarantee the performance of the series or funds or accounts, the repayment of capital from the series or funds or account, or any particular rate of return.

Risk management strategy

The fund's risk management strategy is not a guarantee, and the fund's shareholders may experience losses. The fund employs hedging strategies designed to provide downside protection during sharp downward movements in equity markets. The use of these hedging strategies may limit the upside participation of the fund in rising equity markets relative to other unhedged funds, and the effectiveness of such strategies may be impacted during periods of rapid or extreme market events.

Managed volatility strategy

The fund's managed volatility strategy is not a guarantee, and the fund's shareholders may experience losses. The fund employs hedging strategies designed to reduce overall portfolio volatility. The use of these hedging strategies may limit the upside participation of the fund in rising equity markets relative to unhedged funds, and the effectiveness of such strategies may be impacted during periods of rapid or extreme market events.

Alternative funds

Certain funds (sometimes called "alternative funds") expect to invest in (or may invest in some) positions that emphasize alternative investment strategies and/or nontraditional asset classes and, as a result, are subject to the risk factors of those asset classes and/or investment strategies. Some of those risks may include general economic risk, geopolitical risk, commodity-price volatility, counterparty and settlement risk, currency risk, derivatives risk, emerging markets risk, foreign securities risk, high-yield bond exposure, index investing risk, exchange-traded notes risk, industry concentration risk, leveraging risk, real estate investment risk, master limited partnership risk, master limited partnership tax risk, energy infrastructure companies risk, sector risk, short sale risk, direct investment risk, hard assets sector risk, active trading and "overlay" risks, event-driven investing risk, global macro strategies risk, temporary defensive positions and large cash positions. If you are considering investing in alternative investment funds, you should ensure that you understand the complex investment strategies sometimes employed and be prepared to tolerate the risks of such asset classes. For a complete list of risks, as well as a discussion of risk and investment strategies, please refer to the fund's prospectus. The fund may invest in derivatives, including futures, options, forwards and swaps. Investments in derivatives may cause the fund's losses to be greater than if it invested only in conventional securities and can cause the fund to be more volatile. Derivatives involve risks different from, or possibly greater than, the risks associated with other investments. The fund's use of derivatives may cause the fund's

investment returns to be impacted by the performance of securities the fund does not own and may result in the fund's total investment exposure exceeding the value of its portfolio.

Dow Jones

Dow Jones is a registered trademark of Dow Jones Trademark Holdings LLC (Dow Jones). The trademark has been licensed to S&P Dow Jones Indices LLC and has been sublicensed for use for certain purposes by First Trust Advisors L.P. The product is not sponsored, endorsed, sold or promoted by Standard & Poor's, and Standard & Poor's makes no representation regarding the advisability of purchasing the product.

S&P EWI

Standard & Poor's®, "S&P®," "Standard & Poor's Equal Weight Index," "S&P EWI," "S&P 500®," "Standard & Poor's 500" and "500" are trademarks of The McGraw-Hill Companies, Inc. and have been licensed for use by the Invesco V.I. Equally-Weighted S&P 500 Fund. The fund is not sponsored, endorsed, sold or promoted by S&P, and S&P makes no representation regarding the advisability of investing in the fund.

Manager of managers funds

Subject to approval of the fund's board, Lincoln Investment Advisors Corporation (LIAC) has the right to engage or terminate a subadvisor at any time, without a shareholder vote, based on an exemptive order from the Securities and Exchange Commission. LIAC is responsible for overseeing all subadvisors for funds relying on this exemptive order.

Private equity

The fund is subject to certain underlying risks that affect the listed private equity companies in which the fund invests. These underlying risks may include, but are not limited to, additional liquidity risk, industry risk, non-U.S. security risk, currency risk, valuation risk, credit risk, managed portfolio risk and derivatives risk. There are inherent risks in investing in private equity companies, as little public information generally exists for private and thinly traded companies, and there is a risk that investors may not be able to make fully informed investment decisions. Listed private equity companies may have relatively concentrated portfolios, which may lead to more volatility. Certain fund investments may be exposed to liquidity risk due to low trading volume, lack of a market maker or legal restrictions limiting the availability of the fund to sell particular securities at any given price and/or time. As a result, these securities may be more difficult to value.

YourPath®

The target date is the approximate date when investors plan to retire or start withdrawing their money. These target-date collective investment trusts may continue to make asset allocation changes following the target date. (See the fact sheets for the allocation strategy.) The principal value is not guaranteed at any time, including at the target date. A group annuity contract issued by The Lincoln National Life Insurance Company provides the stable value option in the collective trust. An asset allocation strategy does not guarantee performance or protect against investment losses. A target date collective trust may be more expensive than other types of investment options because it has additional levels of expenses. Collective trusts are non-deposit investment products, which are not bank deposits or obligations, are not guaranteed by any bank, and are not insured or guaranteed by the FDIC, the Federal Reserve Board or any other government agency.

Morningstar Investment Management LLC ("Morningstar", "we", "us", or "our"), is a registered investment adviser registered with the United States Securities and Exchange Commission (the "SEC") pursuant to the Investment Advisers Act of 1940, as amended (the "Advisers Act").

Please carefully review this Investment Advisory Agreement (the "Agreement"). By clicking "I ACCEPT" displayed below, by stating your acceptance to a call center representative ("Representative"), or by signing a paper enrollment form, you (i) acknowledge having received, read and understood the Agreement and agree to be bound by it; and (ii) represent to us that you are a citizen and/or legal resident of the United States or any of its territories.

By stating your acceptance to a Representative, or by signing a paper enrollment form, you acknowledge that you have either agreed to the electronic delivery of our Firm Brochure and have reviewed it, or that you have received a paper copy of our Firm Brochure and have reviewed it. You also agree that all communications from us may be sent to you by email or by other electronic format such as posting on our web site. You understand that your consent to such electronic delivery is effective immediately upon your acceptance of this Agreement and will remain in effect unless and until either you or we withdraw it. You may withdraw your consent to electronic delivery or request a paper copy of this Agreement and/or the Firm Brochure by contacting a Representative at the telephone number listed in the "Contact Us" link on our web site. You may also contact us by writing Morningstar Investment Management LLC, 22 W. Washington Street, Chicago, IL 60602 Attn: Compliance Dept.

You have the right to terminate this Agreement without penalty at any time after entering into this Agreement. Federal law prohibits us from assigning this Agreement (within the meaning of the Investment Advisers Act of 1940) to another investment adviser without your consent. Where applicable, federal law governs the terms of this Agreement and the provision of our Services.

We agree to provide you with investment advisory services (the "Services") that your plan sponsor (the "Plan Sponsor"), recordkeeper or service provider has decided to offer and that you have decided to accept. You understand that your Plan Sponsor or service provider is responsible for selecting the universe of investment options that are to be used in your employer-sponsored retirement plan or other retirement account ("Account"), and that your Plan Sponsor or service provider may change these options over time and that these investment options may include those that are affiliated with your service provider. **You also understand that you may not have access to all of the Services as described herein.** The Services are offered through the Morningstar Retirement Manager platform and may include "Managed by Morningstar" managed account service ("Managed Account Service"), or "Managed by You" advice program ("Advice Service"), or the Morningstar Guidance program ("Morningstar Guidance"). If you select the Managed Account Service, we will actively manage your Account, as described below. If you select the Advice Service or Guidance Service, you are solely responsible for your investment decisions, including whether to accept, reject, or modify our investment recommendations or suggestions, and you are also responsible for implementing our recommendations. The Managed Account Service, Advice Service and Guidance Services are described below in greater detail.

We will provide the Services to you at all times in good faith, and will use reasonable care, consistent with industry practices of similarly situated advisers, in providing the Services. However, we do not guarantee that the Services will be delivered to you without interruption, timely, error-free, or secure. Errors may occur in software-based Services as a result of programming errors, database errors, or other causes. We will provide the Services with that degree of prudence, diligence, care, and skill which a prudent person rendering similar services as an investment adviser would exercise under similar circumstances. The provisions of this Agreement shall not be interpreted to imply any other obligation on our part to observe any other standard of care. In the event an error occurs in our software-based Services, we reserve the right to correct such error in a manner that we deem prudent, subject to any applicable federal and state securities laws.

The Services offered by us are for your personal use only, and are not to be used for any commercial or business purposes. You agree that we may assume that all information provided to us by you, your Plan Sponsor, recordkeeper, or service provider in connection with our Services is true and, accurate.

The Services offered by us are to be used by you **only** in making decisions about the allocation of assets in your Account. The Services are not designed to provide investment advice for an account that will be used by you for non-retirement purposes. The Services estimate your federal, state income, and capital gains taxes based on marginal tax rate calculations (the marginal tax rate is the rate you pay on the taxable income that falls into the highest bracket you reach). These calculations are used when the Services conduct the income simulations. Tax data is updated annually based on United States Internal Revenue Code (IRC) and similar state tax data. The Services use income data for you, as well as your spouse/partner (if provided), to estimate federal and state tax exposure. Your tax exposure is appropriately reduced for pre-tax deferrals, tax-deferred capital gains, and yield and distribution of Roth proceeds. Based on the information we know about you, the Services provide an estimate of your tax exposure, but may not include all tax considerations. Please consult a tax adviser for a complete understanding of your tax situation.

We cannot and do not make any guarantee about the future performance or profitability of your Account, nor do we promise that our investment allocation recommendations will be profitable or that you will meet your retirement income goals. The investments that we may recommend may be subject to a variety of risks, including market, currency, and political risks. Please note that past performance of a mutual fund, stock, or other investment vehicle does not guarantee its future performance.

You agree to use the Services in accordance with this Agreement. You are responsible for reviewing your Account periodically to monitor changes in your Account, including changes in the value of the investments in your Account. You also consent to the transmission of your personal information between us and your service provider or recordkeeper, and you acknowledge that you have received our privacy policy.

The projections, recommendations and suggestions offered under the Services are based on information you provide about your current financial situation, personal status, as well as general market and financial conditions existing on the date you use the Services. You agree to provide complete and accurate information to the extent that the Services ask for such information. You also agree to update that information when your personal or financial circumstances change. While the Services take into consideration all assets that you choose to input to determine our investment recommendations, the Services are not designed to provide recommendations on how to structure your overall retirement holdings (i.e., your assets both inside and outside of your Account). You should consider your other assets, income, and investments in addition to your Account. The Services only provide recommendations or suggestions on how to structure the holdings within your Account, and those recommendations or suggestions are limited by the investment choices available within your Account. You should consider consulting a professional financial adviser to discuss how other investment options outside of your Account might be combined with the Services to best meet your overall retirement goals.

Managed Account Service

The Managed Account Service is a discretionary asset management program designed for participants of a defined contribution or deferred compensation retirement plan, or owners of other types of retirement accounts, that are seeking a financial professional to manage the assets within their Account. If you elect to take part in the Managed Account Service by accepting this Agreement, we will act as your investment adviser, and you grant us authority as attorney-in-fact to act on your behalf and give us full decision-making authority over the investments in your Account without having to consult you in advance. We will have no responsibility or authority over (i) those assets that are subject to Plan Sponsor restrictions, (ii) those assets held in a self-directed brokerage window (if available under your plan), (iii) restricted employer company stock held in your Account, and (iv) any assets held outside of your Account. If you participate in the Managed Account Service, we acknowledge that we are an "investment manager" (as that term is defined in ERISA Section 3(38)) for your Account and a fiduciary of the Plan to the extent we have decision-making authority over the investments in your Account. You also understand that

we **will not** vote proxies for the investment options in which you will be invested.

In the Managed Account Service, we will typically review your Account on a quarterly basis and rebalance if necessary. However, please note that your plan recordkeeper or service provider may not be able to process rebalancing transactions if any investment option in your Account has any restriction (e.g., equity wash restriction) at the time the rebalancing transaction instruction is received by the plan recordkeeper or service provider. In addition, rebalancing transaction instructions may be rejected if any data validation error exists on your Account. In these instances, your Account may not be rebalanced until the next quarterly review period when all restrictions have been lifted and/or data validation errors have been corrected.

You agree to pay us a fee for the services provided under the Managed Account Service (the "Managed Account Fee"). For specific fee information, including the calculation and the schedule of fee deductions from your Account, please either access the Retirement Manager Website, or see your Plan Sponsor, recordkeeper or service provider. Fees are calculated based on your total current plan balance minus any amount in company stock, a brokerage window, or any outstanding loan balance. You authorize your service provider or recordkeeper to deduct the Managed Account Fee from your Account at the end of each calendar quarter in arrears and remit the Managed Account Fee to Morningstar. A prorated Managed Account Fee will be calculated for any individual not in the program a full month and shall be determined by the date of entry into or exit from the program. In the event that this Agreement is terminated, either by you or Morningstar, the monthly installment of the Managed Account Fee that you will be charged will be based on the number of days in the final month in which you receive the Managed Account Service.

The Managed Account Fee does not include any redemption fees, charges or expenses imposed by any investment options (e.g., mutual funds) held within your Account. These investment options may be subject to separate investment advisory, administration, transfer agency, distribution, shareholder service and other expenses that are paid by you, indirectly, as a shareholder/unit holder. You may invest in the investment options without participating in the Managed Account Service (and paying us the Managed Account Fee), however, if you do so, you will not receive the discretionary asset management

contemplated by this Agreement. The Managed Account Fee paid may not be the same as that charged to other clients of comparable size or with similar investment objectives. The payment arrangements depend on the agreements between your Plan Sponsor, your recordkeeper or service provider, and Morningstar. Your recordkeeper or service provider may also charge you or your Plan Sponsor a fee to cover the administrative and other recordkeeping costs associated with the Managed Account Service.

Advice Service

The Advice Service is offered to you for your use in making decisions about the allocation of assets in your Account. You are responsible for making your own investment allocation decisions, and you are free to accept or reject, in whole or in part, the investment allocation recommendations made by the Advice Service. The Advice Service does not make any investment decisions for you. We cannot monitor, review or update our recommendations or projections on an on-going basis, nor do we have the capability to monitor or review investment decisions you make based on our recommendations. Because the Advice Service depends on the completeness, accuracy and timeliness of the information you provide, you are solely responsible for reviewing and updating your individual financial information. You are responsible for tracking your Account and the market to be aware of any changes in the value of your Account. The payment arrangements for the Advice Service depend on the agreements between your Plan Sponsor, your recordkeeper or service provider, and Morningstar.

Morningstar Guidance

Morningstar Guidance includes general and educational information and tools to help you manage your Account. Investment Guidance is designed to give you general asset class level information about your Account. It is provided as general and educational information only, and is not intended to provide "investment advice" as defined by ERISA. The information contained in Morningstar Guidance should not be considered as advice to buy or sell a particular security, mutual fund or other investment. You agree that you are responsible for determining the suitability for you of any particular security, mutual fund or other investment.

Morningstar Guidance cannot monitor, review or update its suggestions or projections on an on-going basis, nor

does it have the capability to monitor or review investment decisions you make based on its suggestions. Because Morningstar Guidance depends on the completeness, accuracy and timeliness of the information you provide, you are solely responsible for reviewing and updating your individual financial information. You are responsible for tracking your Account and the market to be aware of any changes in the value of your Account. The payment arrangements for Morningstar Guidance depend on the agreements between your Plan Sponsor, your recordkeeper or service provider, and Morningstar.

Company Stock

If your Account includes securities issued by your employer that are freely marketable without restrictions imposed by your employer ("Non-restricted Company Stock"), our recommendation will be to sell 25% of the Non-Restricted Company Stock each time your Account is reviewed by us. If you are enrolled in the Managed Account Service, we will send a transaction to sell 25% of your Non-Restricted Company Stock upon you completing a Web session or upon the quarterly review of your Account. We will sell 100% immediately if instructed to do so by you or if the Non-restricted Company Stock balance reaches \$3,000 or 3% of your Account balance. These sales of Non-restricted Company Stock will also include any new Non-restricted Company Stock that is allocated automatically to your Account. In addition, we will recommend that you sell any future contributions of Non-restricted Company Stock. Morningstar shall have no responsibility with respect to any securities issued by your employer that are not freely marketable or subject to any restrictions.

Annual Spending Amount

If you have begun to take withdrawals from your Account, as part of our proposed strategy in both the Managed Account Service and the Advice Service, we will display an Annual Spending Amount. The Annual Spending Amount does not represent a guarantee that you will receive a specific annual amount. Rather, we use your available information to come up with a projection that assists you in evaluating the amount of money derived from various sources of income that will fund your retirement. You should revisit our Services at least annually to review the Annual Spending Amount as changes to your financial situation may occur throughout the year.

Below are some important questions and answers regarding the investment options available in your plan:

Who selected the investment options available in my plan?

Your Plan Sponsor or service provider is responsible for determining what investment options are made available to you in your plan. The selection was done either by your Plan Sponsor or service provider alone or with the assistance of a consultant.

In most cases, we have no involvement in the selection of the investment options available to you. However, there may be instances in which a Plan Sponsor or service provider uses us to assist it in the selection of the investment options available to you. This assistance is done separately and is not part of the Services.

What are the past performances and historical rates of return of the investment options available in my plan?

For information about the past performance and other pertinent information regarding the investment options available in your plan, please click on the Investment Research link within the Morningstar Retirement Manager website.

Does Morningstar or its affiliates have any material affiliation or contractual relationship with the investment options available in my plan?

In most cases, we do not have a contractual relationship with any of the investment options available in your plan. However, in some cases we or our affiliates provide advisory services to funds that may be available as an investment option in your plan. To mitigate the conflict of interest from this relationship, we will not include recommendations into these investment options through our Services.

Additionally, we may have a contractual relationship with and may receive compensation from your plan's service provider for making our Services available to your plan and to the individuals that use our Services. Additionally, one or more of the investment options available in your plan may be affiliated with your plan's service provider. To mitigate a conflict of interest from this relationship, we base our fund recommendations on an objective methodology, and our compensation does not vary based on the funds that we recommend.

In addition, our parent company, Morningstar, Inc., offers numerous products and services to the financial community. Therefore, there may be instances in which

an investment options' investment adviser uses Morningstar, Inc. products and services. A conflict of interest resulting from this kind of situation is mitigated by the fact that recommendations provided by us are derived from a quantitative process which in no way is influenced by the products and services provided by Morningstar, Inc.

Miscellaneous

We reserve the right, in our complete and sole discretion, to alter, modify, add, update or remove portions of this Agreement at any time. Please review this Agreement periodically for changes to its terms. Using the Services after we post changes constitutes your acceptance of any changed terms. We expressly reserve the right to monitor any and all use of the Services.

All trademarks, service marks, trade names and other intellectual property displayed in connection with the Services are the property of Morningstar. You acknowledge that United States copyright law and other laws governing intellectual property protect the Services and the information contained in the Services. You also agree and acknowledge that the Services contain proprietary data and information of Morningstar, and you agree that you will not use such data or information for any unlawful purpose, or any commercial or business purpose.

If there is a dispute between you and us about the Services that cannot be resolved, we each agree that the dispute will be resolved through binding arbitration to be conducted pursuant to the rules established by the American Arbitration Association. A panel of three arbitrators will be selected. Each party shall select one arbitrator, and the two arbitrators so selected shall then select the third. Each party shall bear their own expenses, including attorney's fees, and the parties shall share the cost of the arbitration equally. By agreeing to arbitration, you are giving up the right to have your claim heard in a court of law, however, either party may bring an action in court to compel arbitration under this Agreement and to enforce an arbitration award. The arbitrators' decision may not include factual findings or legal analysis. The rules of procedure for arbitration differ from the rules of court. Also, the right to appeal the decision of the arbitration panel is limited. Arbitration shall be final and binding upon the parties.

We may terminate this Agreement and your access to the Morningstar Retirement Manager web site and Services immediately if we determine that you have

breached this Agreement. We may terminate this Agreement and your access to the Morningstar Retirement Manager web site and the Services immediately if we do not receive timely payment for the Services. We may also terminate this Agreement and your access to the Morningstar Retirement Manager web site and the Services if the agreement between us and your service provider, recordkeeper or Plan Sponsor is terminated. You have the right to terminate this Agreement without penalty at any time.

Termination of this Agreement will not affect the provisions of this Agreement relating to arbitration of disputes, the validity of any action taken prior to termination, or liabilities for actions taken prior to termination.

Except as otherwise provided by law, we will not be responsible for (i) any loss or damages arising from any advice or recommendation made or any other action taken or omitted to be taken in good faith or (ii) any loss resulting from our use of inaccurate, outdated or incomplete information furnished by you or through your Plan Sponsor, service provider or recordkeeper. Federal and state securities laws and the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), to the extent applicable, impose liabilities in certain circumstances on persons who act in good faith, and nothing in this Agreement waives or limits any rights you may have under those laws. We will not be responsible for any loss caused directly or indirectly by government restrictions, exchange or market rulings, suspension of trading (including suspension of redemption rights in your investment option), war, natural disasters, or other conditions beyond our control, including extreme market volatility.

If any provision of these terms is deemed unlawful, void, or for any reason unenforceable, then that provision will be deemed severable from these terms and will not affect the validity and enforceability of the remaining provisions.

The laws of the State of Illinois will govern this Agreement and its enforcement, except to the extent federal law preempts Illinois law. Nothing herein will be construed in any manner inconsistent with the Advisers Act, ERISA (if applicable), or any rule or order of the SEC.
