

Prerequisite Waiver

You are taking a Baker College course through the Running Start Program that requires a prerequisite. According to Baker College's criteria, you are not required to take the prerequisite course based on either passing a Baker College waiver test of the requisite course, or by achieving an acceptable Baker College cut score on your SAT/ACT.

Please note that other institutions may have different placement criteria, and the prerequisites that are waived due to Baker College's standards, may not be waived by some institutions. This means that they may require you to take a class that Baker College has waived.

I understand that waiver of a prerequisite by Baker College does not guarantee waiver of the class by any other institution.
